

INSTALLATION

Services at Smithsonian Exhibits

Smithsonian Exhibits installs all types of exhibits, from full galleries to individual graphics and display cases. Our installation team members are the same people who design and build our exhibits, so they know exactly how everything fits together. We are also available to install exhibits from outside sources. Our staff are trained in art and artifact handling and secure all exhibit elements expertly and efficiently. What can we install for you?

Services:

- Exhibit installation
- Art and artifact handling and installation
- Mural and graphics installation
