

GRAPHICS

Services at Smithsonian Exhibits

Smithsonian Exhibits produces and installs murals, text panels, object labels, vinyl lettering, and other two-dimensional graphic elements. We operate state-of-the-art equipment, including plotters, laminators, and CNC mat cutters, and are also skilled in traditional techniques, such as archival matting and framing. Our wide-format aqueous, solvent, and direct-to-surface flatbed printers allow us to print on a wide range of materials, including paper, fabric, wood, metal, vinyl, and acrylic—appropriate for both indoor and outdoor settings. What can we produce for you?

Services:

- Archival matting and framing
- Comic illustrations
- Direct printing
- Eco-solvent printing
- Installation
- Vinyl lettering
- Wide-format mounting and laminating
- Refurbishments
